

Introduction and Methodology

Formation Goal

By graduation, students will be able to exhibit virtue and gift of self through works of service and mercy. These are to become lifelong values for the student.

Pillars of Service

Students will have the opportunity to volunteer and discern within the context of three pillars of service throughout their time at Bishop Ready High School. This will include service opportunities both inside and outside of the classroom. These pillars are **Church, School, and Community**

Vocations of Service

Within the context of their various service opportunities, students will be exposed to various vocations, or types, of service. Each of these vocations will have specific saints attached to them. Over time, students will have the opportunity to pray and discern with the saints they choose.

Discernment and Service

Through prayer and service learning, the students will be guided in active discernment as to their vocation post-high school, as well as giving them opportunities to grow in virtue and independence. As the student advances through the grade levels, their discernment and service will become more focused and independent.

Approved Agencies for Service Hours:

***These are the ONLY non-profit agencies permitted for service over the summer, no matter what agency the student has used in the past!**

***Please be sure the supervisor form on the BRHS website, under the tab faith life, is used and properly filled out to document service experiences over the summer.**

- Any Catholic Church *Need not be a member
- Catholic Elementary Schools ONLY
- J.O.I.N.
